

Dear Supporter,

Now is the time for your voice to be heard! [Join NNEDV in calling on Congress to defend the young immigrants who have received protections under the Deferred Action for Childhood Arrival \(DACA\) program.](#)

Today, the Trump Administration announced its plan to end DACA, which provides work permits to undocumented immigrants who were brought into the U.S. as children. **However, President Trump has given Congress a six month deadline to find a legislative solution.**

Ending DACA would be devastating to domestic violence survivors, as the program is critical to helping DACA-eligible survivors feel safe, seek help, or report crimes without fear of being separated from their families and communities.

We urge Congress to find a bipartisan fix that would permanently protect DACA recipients who were brought to this country as children and are integral to our communities as teachers, first responders, and members of the military service. Some of our strong allies in Congress have introduced the bipartisan DREAM Act of 2017 (H.R 3440 and S. 1615) which would grant legal status to young “Dreamers” who arrived in the United States before turning 18, thus allowing them an opportunity to continue living and working in the United States.

Join us in urging Congress to pass the bipartisan DREAM Act, or enact similar legislation that would ensure survivors and witnesses of crimes like domestic violence, sexual assault and human trafficking feel safe to report crimes without fear that seeking justice will put them at risk of being deported.

Email your Representatives and request support for this humane measure.

Again, thank you for standing with survivors each and every time we have called upon you to act. Your voices matter.

NNEDV stands with Dreamers and strongly supports the DREAM Act as a compassionate solution that will protect immigrant survivors of domestic and sexual violence from greater risk of exploitation and abuse.

Thank you!

For peace and safety,

Kim Gandy
