

Victims need your help today!

Please [sign our petition](#) urging Senators to block the damaging health care bill that the House of Representatives just passed, turning back the clock for victims and their children.

Background: Yesterday, the U.S. House of Representatives passed the American Health Care Act (AHCA), which repeals the Affordable Care Act (ACA) and puts victims of domestic violence at serious risk.

But the Senate can make it right! **[Sign our petition urging the U.S. Senate to protect survivors by rejecting the dangerous AHCA.](#)**

The House bill would put health care coverage out of reach for countless victims of violence. More than 1 in 3 women have experienced rape, physical violence, and/or stalking by a current or former intimate partner at some point in their lifetime.

Among other disastrous provisions, the AHCA would allow insurance companies to charge victims of violence more for health care coverage. **As it stands, the AHCA is poised to become a new tool in an abuser's arsenal to trap victims. Some victims of domestic violence will be forced to choose between having continuing health care for a pre-existing condition like cancer or lupus, and being safe from abuse.**

[The AHCA would be disastrous and harmful for survivors. Join us in urging the U.S. Senate to reject it:](#)

Thank you for all that you do to support survivors and help end domestic violence.

For peace and safety,

Kim A. Gandy, NNEDV President & CEO
